

**NCI elevated to Check Point Gold Partner Status**  
*Recognized For Security Expertise and Commitment to Customers*

**Mississauga, ON – June 1, 2008** – NCI (Net Cyclops Inc.), a leading Canadian IT Security firm providing information security solutions and services, today announced it has been granted Gold Partner status from Check Point® Software Technologies Ltd. (Nasdaq: CHKP). This recognizes NCI's expertise both in the IT Security arena and with Check Point solutions.

"NCI is now one of a handful of Check Point Gold Partners in Canada that also specialize in Check Point support and training," said Eugene Ng, NCI's VP of Technical Services. "NCI has demonstrated its dedication to quality support and to expertise with Check Point products."

NCI is Canada's premier full service security consulting firm. NCI provides advanced firewall support services, including Managed Firewall Services, in addition to risk and vulnerability assessments, regulatory compliance services and security strategy and policy development. The company's technical support center is staffed with Check Point-certified engineers, who are experts in firewalls, VPNs, Intrusion Prevention Systems (IPS) and endpoint security. NCI's client-focused approach delivers customized solutions that best fit the customer's budget and security requirements.

"This is just the next step in our drive to provide the best services and products for our clients," said Dan Timmins, President of NCI. "As a trusted security advisor to a growing number of Canadian firms, we are committed to creating the best solutions to fit their specific security needs. Check Point's rich product set fits many of our clients' environments."

**About NCI (Net Cyclops Inc.)**

NCI's team of certified information security experts secures major institutions and hundreds of private sector clients across Canada. NCI works with clients to secure their IT environment in the most efficient and cost effective way. From security assessments through planning and solutions to installations, the NCI team of experienced security professionals (CISSP, CISA, and SANS GIAC certified) prides itself in "providing the right fit". NCI managed services and customized support are designed to compliment clients' internal capabilities. As a Certified Check Point Training Centre, NCI offers a series of certification preparation and personal development courses. **About Check Point Software Technologies Ltd.**

Check Point Software Technologies Ltd. ([www.checkpoint.com](http://www.checkpoint.com)) is a leader in securing the Internet. The company is a market leader in the worldwide enterprise firewall, personal firewall, data security and VPN markets. Check Point's PURE focus is on IT security with its extensive portfolio of network security, data security and security management solutions. Through its NGX platform, Check Point delivers a unified security architecture for a broad range of security solutions to protect business communications and resources for corporate networks and applications, remote employees, branch offices and partner extranets. The company also offers market leading data security solutions through the Pointsec product line, protecting and encrypting sensitive corporate information stored on PCs and other mobile computing devices. Check Point's award-winning ZoneAlarm Internet Security Suite and additional consumer security solutions protect millions of consumer PCs from hackers, spyware and data theft. Extending the power of the Check Point solution is its Open Platform for Security (OPSEC), the industry's framework and alliance for integration and interoperability with "best-of-breed" solutions from hundreds of leading companies. Check Point solutions are sold, integrated and serviced by a network of Check Point partners around the world and its customers include 100 percent of Fortune 100 companies and tens of thousands of businesses and organizations of all sizes.
